Racing: 7:30 PM

PILL DRAW

- Driver or crew member will be allowed to draw a pill. You must have your transponder and have it properly installed for hot laps.
- Pill draw will close at 6:35 PM on regular race nights.
- Switching cars after pill draw will result in moving to the rear of that cars designated heat race.

- If the driver switches cars after heats, driver takes backup car to rear of the next race they are scheduled to compete in.

Exceptions- On championship nights, Top 6 drivers will remain in their position in the feature after switching cars. Driver can switch cars for a make-up race.

Car & driver must be present by 7:15 pm of class entered on Championship nights.

DIRECTOR OF COMPETITION MUST BE NOTIFIED OF ALL DRIVER CHANGES PRIOR TO THEIR RACE, FAILURE TO DO SO WILL LEAD IN DISQUALIFICATION.

Track packing

ALL CLASSES WILL BE REQUIRED TO HELP PACK THE TRACK IF NEEDED. IF YOU DO NOT HELP PACK THE TRACK. YOU WILL NOT BE ALLOWED TO HOTLAP. NO EXCEPTIONS.

QUALIFYING

- Late models will hot lap/qualify in their group determined by the pill draw. The format will be green, white, checkered. Last heat race winner will roll a dice to determine invert for feature. Modifieds will group qualify on special events as determined. Eighteen or fewer cars and you will qualify against the entire field to set heat race(s) lineups. Nineteen or more cars and we will utilize group qualifying and you will qualify against cars in your heat race only.
- Transponders must be installed for the hot lap/qualifying session, if you do not have your transponder in, you will not receive a time & will start on the rear of your heat race. **NO EXCEPTIONS!!**

Crossing the track

- No one will be allowed to cross the racetrack at any time during that evening's racing, unless permitted otherwise to do so. No one will be allowed outside the pit entrance of Turn 4. If any crew member crosses that track, the car in question will be black flagged for that event.
- No crew member will be allowed on the racetrack at any time during any event, or during any yellow or red flag situation, unless otherwise instructed to do so.
- There will be a designated hot pit area. All crew members must remain in this area until their race has been completed. Hot pit is for features only. Maximum of two members per car only.
- No one will be allowed to enter the track from the back chute exit.

SIGNAL STICKS

- No type of lighted signal sticks are permitted.

HOT PITS

- There will be an open hot pit area located in the center of the infield. This area will only be open during the feature events. Pit crews must be remained in the designated area.
- If you must use the hot pit area, you will have to be ready to go by the time the lineups are done and the yellow flag has been turned off. You will not be able to re-enter the track Under the green flag. If you do re-enter under the green flag, you will be **Black Flagged**.
- There will be **No Courtesy** laps given.
- If you go to the outer pit area during the race, you will NOT return to that race! (Only exception is if during the race you get off the front straight away and cannot get back on the track before turn one and the caution comes out. Car must come immediately back on track.)

Transponders

- Each driver will receive a serial number transponder at pill draw each night. The Driver will be responsible for that transponder for that evening. The driver must turn in their transponder at payoff to receive that evening's pay. **No exceptions.** \$50 fine if it is not turned in that night.
- Be sure your transponder is mounted in its proper location. For all weekly racing events, the transponder is mounted on the rear axle. The 4 cylinders will mount them on the rear suspension. If there is a question about the location, see Brownstown's Bullring track officials.
- If your transponder is lost or damaged, you will be charged \$175 replacement cost before being allowed to race at the Brownstown Bullrings next racing event.
- **You must have your transponders in for hot laps**
- It will be your responsibility to see that your transponder is on your car for every race you are in that evening. If you do not have your transponder in, you will be black flagged for that race.
- Every car must have a transponder pouch. No duct taping or any other form of attaching your transponder will be allowed.
- Transponders are the official scoring for close finishes. For all close finishes, track officials will verify cars involved in the close finish have their transponders mounted in the right location and as long as they are, the electronic scoring is official. If one car has their transponder mounted in the wrong location, the car with it mounted in the right location will automatically be scored in front of the car with it in the wrong location.
- Race Receivers are mandatory in all classes! It is the driver's responsibility to ensure they have working batteries and working ear pieces. (Race Receivers are not only good safety equipment, but they also help the track run a more efficient race program)
- If you do not have a race receiver, they will be available for purchase or rental at the track. Default channel is 454.00 Will be used for all classes.
- If you do not have a working race receiver during your race, you will be disqualified.

COMPETITIVE SPEED

If a car is not maintaining an up to speed pace and falls two laps down, they will be considered a safety concern and will be removed from the race. If time allows, the track will allow new drivers some laps after the races to help them improve.

ROUGH DRIVING

- If you make contact with another car with that car spinning out, you will go to the tail along with the car that was spun out. No exceptions.
- If you intentionally spin out another car, you will be black flagged for that race.

STAGING

- All races for each class will be required to report to the staging area two races prior to their scheduled race. Failure to do so will result in you being placed to the tail of that race. Once in staging pit crew/driver may work on car until race is called to the track. When race rolls onto the track, any car not leaving staging or moving forward immediately when race is called on track will be put to the rear of that race.
- Alternates for feature must report to staging. Only alternates in staging will be considered eligible to enter the race if needed. Please be ready.

STARTS AND RESTARTS

- Original starts will be double filed with pole sitter setting the pace. You must be side by side and nose to tail. The front row will be given two chances to get this done. If not, the front row will be

penalized to the second row and the 2nd row will be moved to the front row. Original starts will be off turn 4 at the last ute tire on the infield.

- Original starts:
 - First and second, start caution: If caution is caused by a single car, that car will go to the tail. Others move up. No crisscrossing of lineup. If multiple cars are involved in the caution, all cars able to restart that do not go to hot pit will get their original starting spot.
 - Third, start caution: All cars involved in the caution will go to the tail and it will be a single file start.
- If an intentional yellow is brought out, you will be black flagged for that race.
- All laps will be counted and scored complete if the leader plus one car crossed the start/finish line. Cars not passing the start/finish line will be relined based on their last completed lap, with the cars involved in the caution placed behind them.
- STARTS AND RESTARTS: Delaware double file restarts will be implemented in the Heats, Dashes, B Mains and Features to the checkered flag with the leader out front and the remainder of the field double filed with lapped cars lined up behind lead lap cars. Second place car chooses high or low, with everyone else lining up accordingly. Restarts will be in turn 4, not turn three. No jumping. You cannot pull up along the rear quarter panel of the car in front of you before the green flag. Even on Delaware double restarts, rows three on back are nose to tail behind the second row. No fanning out before the green flag. Track officials may elect for a single file restart after an excessive number of cautions. All single file restarts are nose-to-tail with no fanning out before the green.
- Jumping on starts or restarts you will be penalized two cars for every spot jump to be assessed at the next caution. If there is no caution, it will be assessed at the end of the race
- Lap cars will go to the tail of all future restarts. Cars involved in the caution will go ahead of the lap cars, if they are on the lead lap.
- Any car brake checking on starts or restarts will be warned once and will be sent to the tail on the second occurrence.

YELLOW FLAGS

- If you bring out the yellow flag or you are involved in the yellow, you will go to the tail. If you make contact in an accident and stop on the track, you will go to the tail. If track officials determine you only made slight, incidental contact while trying to avoid the other cars involved, you will get your position back.
- If you come to a stop on the track, you must remain in the car until told by Brownstown Bullrings Official or safety personnel to exit your car unless there is a fire. If you exit your car, you will be disqualified for the remainder of that evening's events. No exceptions.
- Stopping without making contact to avoid an accident, you will be given your position back.
- Any car causing intentional yellow will be black flagged for that race.

TWO SPIN RULE

- There will be a two-spin rule in effect for all races. This means that if you are charged with a two yellow flag situation, you will be black flagged for that race.
- Only the car or cars that cause the yellow will be charged.

WHITE AND CHECKERED FLAGS

- Heat, dash or consi, If the leader plus one car receives the white flag prior to a caution, that race will be considered complete. The finish will be based on the order they were running on the last completed lap, with the cars involved in the caution place to the rear of the field
- If the leader plus one car does not receive the white flag prior to the caution, the race will be restarted going green, white, checkered.
- Features: All features will finish under the checkered flag. When the leader receives the checkered flag, the race is over if there is a caution. After the leader receives the checkered, the rest of the field not crossing the start finish line reverts back to the last lap with the cars involved in the caution being scored behind all cars not involved. If there is a caution before the leader receives the checkered, the race will restart. Green & white together with the checkered displayed the next time by.
